

Streple Litepaper

Redefining Borderless
Finance & Wealth Creation

What is Streple?

Streple is a community-driven blockchain network designed to make finance borderless, Empowering, and accessible to everyone.

We combine:

- On-chain banking → fast, low-cost global transfers
- Copy trading & mentorship → follow and learn from expert traders
- Gamified learning → earn while learning about crypto & finance
- Tokenized assets → trade fractional real-world assets (RWA) securely

Streple is not just another blockchain, it's a movement toward financial freedom.

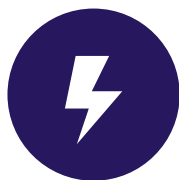

Our Vision

A world where anyone, anywhere can trade, earn, and grow wealth securely without limits of geography or legacy systems.

Why Streple?

- Borderless by design → Payments, trading, education, and RWA in one ecosystem
- Community-first → Copy trading, mentorship, and governance rewards
- Secure & scalable → PoS-PBFT consensus, 1,500+ TPS, quantum-resistant encryption
- Inclusive wealth creation → Gamified “learn-to-earn” programs
- Developer-friendly → Open APIs and SDKs for integration

Core Features

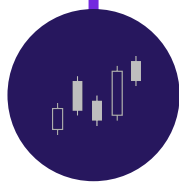

Gamified Financial Education

Earn STRP while learning crypto & trading basics

On-Chain Banking

Fast, low-cost cross-border payments

Copy Trading & Mentorship

Profit by following expert traders, enhanced by Streple market intelligence and automation

Market Opportunity

Streple is positioned at the center of multiple trillion-dollar markets:

Digital Payments → \$10T+ by 2030

Crypto Trading & Copy Trading → Fastest-growing Web3 segment

Gamified Education → Massive adoption in youth & emerging markets

Tokenized RWAs → \$16T projected by 2030

Early focus: Africa, Europe, Asia — regions with highest demand for alternative finance.

Roadmap

Phase 1 – 2025 (Foundation)

- Website & whitepaper
- Gamified education MVP (Learn2Earn)
- Copy trading launch & pro traders onboarded

Phase 2 – 2026 (Growth)

- Bank deposits/withdrawals (Africa pilot)
- Community mentorship & trading
- Marketplace beta
- Early token launch prep

Phase 3 – 2027 (Scale)

- STRP token launch
- Tokenized RWA trading
- API rollouts for partners
- Institutional & exchange partnerships

Phase 3 – 2027 (Scale)

- Multi-continent rollout
- DAO governance model
- Full Streple Ecosystem integration

STRP Token Utility

Payments → Seamless ecosystem transactions

Rewards → Earn by learning, trading, and participating

Governance → Vote on key decisions

Staking & Yield → Secure the network, earn passive income

Ecosystem Growth → Fuel partnerships, liquidity, and innovation

Security & Compliance

Audits → Biannual reviews (Certik/Quantstamp)

Compliance → KYC/AML, RWA standards (ERC-3643)

Risk Controls → AI anomaly detection, asset provenance

Streple is building a borderless financial future where anyone can participate, learn, and grow.

By merging blockchain innovation with real-world use cases, Streple empowers individuals and communities to achieve true financial inclusion.

Join the movement.
